CLAIMS 1-15 ARE PRESENTED FOR EXAMINATION

DETAILED ACTION

The requirement for restriction is withdrawn in view of applicant's persuasive arguments submitted in the papers received July 28, 2003..

OBJECTIONS

Claims 3-4 and 6-8 objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 1 and 5 recite a limitation of active agents as 80 weight percent of polyvinyl acetate combined with about 20 percent weight percent polyvinyl pyrrolidone. Claims 3-4 and 6-8 are not further limiting since they increase the ranges of from about 20 weight percent to about 90 weight percent of polyvinyl acetate and from about 2 weight percent to 60 weight percent of polyvinyl pyrrolidone. Claims 2-4 and 6-8 do not further limit claims 1 and 5.

Claims 5-8 and 11 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 1-4 since the preamble of claims 5-8 to a "pharmaceutical construct" is not a patentable feature differing from a "pharmaceutical" composition". The agents in both instances are the same agents after the key term "comprising". When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
